## PRESIDENT'S MESSAGE

**October is here and the end of summer means..cooler weather and it's finally time for Abate of Florida's "Fall State Biker Bash" being held in Arcadia, Fl on the 7th, 8th and 9th. Camping and live bands all weekend plus much more. Be there or be square!! Did I mention the Iron Horse Rodeo? A scavenger hunt and swap meet too! The state meeting is there also on Saturday the 8th if anyone wants to attend..everyones welcome..2pm.**

**Then...Biketoberfest 2016!! The official dates are 10/13 to 10/16 so be ready for tens of thousands of people and bikes (and trailers) heading to Volusia and Flagler County. Please ride safe and don't forget to look twice or even three times, it might save your life!**

**Thank you to everyone that attended our last meeting and hoping you can come out and support us this month too.**

**We have a ton of Daytona Beach Chapter t-shirts, long and short sleeves available in grey or black so get one (or a few) and show your local Abate pride during Biketoberfest. No one else has them but us! See Frank at the meeting, he will have them on display. Hooded sweatshirts sizes 3 and 4xl are here also!**

**As always, Thanks to the FOE #3800 for taking great care of our chapter.. you guys are the best!!**

**Also...An early reminder for our annual Christmas run to the rehab center in Daytona. I'll have a date and time by the November meeting. You won't wanna miss this!!Geno**

## VP MESSAGE

Another month has come and gone, hopefully the heat will be easing up a bit and the best time of the year to get out and ride is fast approaching. We have the ABATE of FLORIDA Fall State Party this month on Friday October 7th thru the 9th at the Peace River Campground in Arcadia, see flyer for details. The State meeting is also going to be in Arcadia the same weekend Sat the 8th, hopefully the weather will be nice for a good ride down and back... Right behind that we have Biketoberfest, officially from the 13th-16th, and should have the town hopping again. Please everyone, check over your own bike and those that ride with you, there are going to be many people from out of town that may not know the area like the locals and can cause them to act unpredictably. I hope we all have a safe and fun event... It would be nice to see everyone at our meeting Thursday Oct the 6th at the Eagle on Nova Rd. Ormond Beach at 7:30, we can't do any of this without you... We are here to fight for your rights... Till next month, Ride safe!!!

Thank you,  
Alfy  
Vice President

Go on to the ABATE of Florida Website [www.abateflorida.com](http://www.abateflorida.com) , Click on the Legislative Information Center and subscribe to email list. Ideally you would get the latest legislative news and press releases. Contact the State Legislative Trustee, Darrin Brooks, to get on his email list for email alerts when bills are in committee. At that time we can contact legislators outside our district. He sends news reports of legislative activities on a myriad of topics, not necessarily those that ABATE is involved in. Consider signing in to the MRF or AMA alerts. Sometimes issues do move quickly. Sometimes the alerts actually give the bill numbers.

From the MRF Sept 16, 2016

This week, Pete Pettalia, a lawmaker who served in the Michigan State Legislature was fatally injured when a pickup truck turned directly into his lane. It is important to note that, Pettalia, was wearing a helmet at the time of the incident. Michigan State Representative Pettalia was an avid motorcyclist rights defender and advocate playing a key role in what would eventually become the repeal of the helmet law in Michigan state in 2012. News sources like CNN quickly tried to appeal to the irony that a critic of a universal helmet law was killed in a motorcycle accident. CNN's headline read, "Lawmaker Who Opposed Universal Helmet Law Dies in Motorcycle Crash." You would expect CNN to be more professional, the headline infers that the lack of a helmet was the reason for the fatality. This biased headline and notion is completely false as reports confirmed that the lawmaker was wearing a helmet at the time of the incident.

On the county and city level we have the issue of freedom to assemble and the sanitization of motorcycle special events. There WERE candidates (in the primary) who are sympathetic to our life style BUT LOST. At the county level we have candidates who the influential rich have sponsored their campaigns. The people in the power pyramid are typically nice people but their interests do not always coincide with our lifestyle.

Motorcyclists could have made a difference but did not. ABATE of Florida cannot endorse candidates. We can report on the voting record and their views on the issues that affect motorcyclists. Our lobbyist can say who he likes.

### **County Judge Group 3**

Heather Caeners, Shirley Green,

Judge Green (and Judge Sanders) has withheld adjudications thus circumventing the \$500/\$1000 fine for those who cause an accident resulting in an injury or death of a motorcyclist. And do not forget Judge Dempsey (who was recently elected) who presided over the case where an officer ran down someone on a moped but was found not guilty because they could not prove in court he was driving his patrol car. Judges do have judicial discretion. Take note on the Minglers Swinger Club that the City of Daytona Beach is trying to shut down. The same tactics will be used against clubhouses. Magistrate Vukelja ruled that Minglers was a bottle club. While there was a News-Journal editorial that said the City should keep their noses out, where was the editorial for the now defunct Cheaters in Ormond Beach.

### **US Representative District 6**

Ron DeSantis REP; William McCullough DEM

McCullough believes only special people (i.e. prosecutors, officers of the court) should have a concealed weapons permit. Ron DeSantis shares our concerns about the over reach of federal agencies and how they ignore Congress. The AMA gave him an unfavorable rating but remember bills that contain something we want are also full of other stuff.

The threat of legislative action to take away freedom of choice is real. I personally did not think so past sessions. Last month detailed the efforts of bureaucrats trying to impose a mandatory helmet law. Our efforts on the Vulnerable Road Users Bill have identified some legislators who think we all should be wearing helmets. In 2014 there were 135 bicyclist fatalities; 427 motorcyclists (not passenger) fatalities.

From Sept 1 NRF Release

In 2015, the nation saw an overall upward trend in vehicle crashes and fatalities across all segments of the population. Overall, there was a 7.2 percent increase which is the largest percentage increase in almost 50 years. Increases in fatalities were seen in all types of vehicles and roadway users including SUVs, vans, trucks, pedestrians, bicyclists and motorcyclists. Specifically, motorcyclists' fatalities in 2015 had an increase of 8.3%, the largest since 2012.

Hello

I am the legislative trustee of the Daytona Beach Chapter of ABATE of Florida, Inc. ABATE of Florida is a motorcyclist political advocacy organization with a fulltime lobbyist in Tallahassee. Last session we were supporting the Vulnerable Road Users bill and seek to influence how the DHSMV spends the \$2.50 that only motorcyclists pay every year for motorcycle safety. In past years we were able to obtain funding for our own Motorcycle Safety and Awareness Program, although have been vetoed from the budget in recent years. Lately it has come back to helmets. At issue is do you support the current situation that allow adults to make there own decision on when to wear a helmet or support mandatory motorcycle helmet. I wish too attach two releases that support freedom of choice but need to use a regular email address since your website does not support attachments. ABATE of Florida believes that mandatory helmet laws do not reduce fatalities and will only result that every dead motorcyclist is wearing a helmet.

Best regards,

John Banta

#### **State Representative District 25**

Noel Bickford DEM, Tom Leek REP

Bickford asked for and received the releases. Leek received the releases and asked for a meeting to discuss the law. Huh???

#### **State Representative District 26 Primary**

Michael Cantu REP, Patrick Henry DEM,

No response from Henry, (I guess that is how they do business on the City of Daytona Beach Commission). The Black Legislative Caucus was a key supporter in our efforts to change the law in 2000.

From Mike Cantu:

Hello John, and thank you for the question. Yes I support the current law that permits the rider to choose on the matter of helmets, with the exception of any passenger under the age of 18. I look forward to serving you in the House of Representatives. Thank You Michael Cantu

### ETHANOL

This is from the AMA

**WASHINGTON, D.C. – The American Coalition for Ethanol is telling fuel retailers** they should require a minimum purchase of 4 gallons at blender pumps offering E15 and post signs saying that buying less than 4 gallons may violate federal law. The advice, found in the *E15 & Flex Fuel Retailer Roadmap, 2016-2017 Edition*, is intended to convince retailers to carry more E15 fuel (15 percent ethanol) and use blender pumps to dispense it. In 2012 the U.S. Environmental Protection Agency proposed the 4-gallon minimum purchase as part of its misfueling mitigation plan. But the agency withdrew the proposal after the AMA pointed out that motorcycle fuel tanks hold only 3-5 gallons. In addition, as much as a quart of the higher-ethanol fuel could remain in the dispenser hose after a vehicle finishes fueling, potentially damaging an engine not designed to operate on E15. Motorcycles and all-terrain vehicles are not EPA-approved to operate on ethanol blends higher than 10 percent and inadvertent misfueling with E15 is a major concern. The EPA requires that stations dispensing E10 and E15 from the same hose also provide a separate E10 pump for consumers who are not buying at least four gallons.

From August 19 MRF Release:

Because there is so much controversy over the ethanol mandate, we have seen Congress introduce dozens of measures that both support and criticize the current mandate. However, as the legislative year winds down, it is looking less and less likely that any of these proposals will be passed into law. As an effect, both ethanol proponents and critics are looking at the issue through the lens of a possible Trump Administration or Clinton Administration. Rhetoric on the issue between the two candidates can give some indication of where they might fall on the contentious issue of ethanol.

At an event hosted by the Iowa Renewable Fuels Association, Trump clearly stated to the room of ethanol supporters that he supported higher blends of ethanol and that the EPA should follow through on the ethanol mandates set forth by Congress. Though he made his position crystal clear, it's important to remember the setting for the speech and also that the speech was made just days before the Iowa caucus; a critical state during primary season. Although since then and more recently, Mr. Trump has been quoted as saying that ethanol is, "the key to complete American energy Independence," even meeting with major ethanol producers.

For former Senator Clinton, she made waves recently, when it was reported that that the Clinton campaign had discussed the Renewable Fuel Standard with Mary Nichols, chairman of the California Air Resources Board, a noted critic of the ethanol standard, and potential Clinton EPA chief. Though when asked, a Clinton spokesperson rejected the notion that Mrs. Clinton would repeal the RFS. It also should be noted that in May, Mrs. Clinton wrote an op-ed for an Iowa publication where she indicated that she supported the ethanol mandate but there was room for improvement.

From Sept 9 MRF Weekly Bulletin

Wisconsin Congressman Jim Sensenbrenner is taking the EPA to task for failing to produce legally required reports on the environmental impact of the Renewable Fuel Standard which concerns how much ethanol is in use in the U.S. In August, the EPA Office of Inspector General published a report finding the EPA's Office of Research and Development has not complied with a statutory requirement to provide a report to Congress every three years on the impact of biofuels including ethanol. In Sensenbrenner's letter sent late last week, the legislator demanded that the agency produce the report and provide updates by October 8. "Additional and updated research and analysis allows lawmakers to better gauge the strengths and weaknesses of policy we enact, and science-based decision-making is vital when evaluating our biofuel mandate," he wrote in the letter. As of this writing, the EPA has not yet responded.
